

# Team Contributions: Rev 0

## Software Engineering

Team 15, ASLingo  
Andrew Kil  
Cassidy Baldin  
Edward Zhuang  
Jeremy Langner  
Stanley Chan

### 1 Demo Plans

We plan on starting the demo with a quick introduction using sign language. We will then walk through the front page UI, going through the 3 key pages:

1. The hand sign resources page
2. The hand sign practice page
3. The exercise page

Afterwards, we will leave time for questions with the Professor and TA.

### 2 Meeting Attendance

Student	Meetings
Total	22
Cassidy Bladin	4
Stanley Chan	6
Andrew Kil	6
Jeremy Langner	4
Edward Zhuang	4

Back-end Team held meetings on our own that Jeremy and Cassidy did not have to attend. Edward had work obligations that led him to miss a couple team meetings.

### 3 Lecture Attendance

Student	Lectures
Total	2
Cassidy Bladin	2
Stanley Chan	2
Andrew Kil	2
Jeremy Langner	2
Edward Zhuang	2

### 4 Commits

Student	Commits	Percent
Total	126	100%
Cassidy Bladin	9	22%
Stanley Chan	3	21%
Andrew Kil	12	20%
Jeremy Langner	6	20%
Edward Zhuang	3	17%

### 5 Issue Tracker

Student	Authored (O+C)	Assigned (C only)
Cassidy Bladin	0	0
Stanley Chan	0	0
Andrew Kil	0	0
Jeremy Langner	0	0
Edward Zhuang	0	0

We unfortunately haven't making use of Git issue tracking as much as we should. Any issue has been communicated using our internal Discord and resolved through said Discord.

### 6 CICD

CICD is used in our project all the time. As stated in our Development plan, we open new branches for development features continuously committing to them

until the feature is complete. Afterwards, we merge the branch to main and integrate the feature.
